

2.3 million of the world's children are infected with HIV. In the developing world, half of them won't live to see their **second birthday**.

“Children Can't Wait!”

A benefit in support of the campaign to reform Canada's Access to Medicines Regime (CAMR)

Hosted by the
Canadian HIV/AIDS Legal Network
November 20, 2009 — Universal Children's Day

Two bills currently before Parliament provide an opportunity to fix the flawed CAMR. With your help and support, we can raise awareness and funds to reform CAMR — and ensure that the millions of people living with HIV/AIDS in the developing world have access to the treatment they need to survive.

Please join us for this exciting night of music, information and fundraising in support of the campaign to reform CAMR. Together, let's make a difference in the lives of children and adults suffering from HIV/AIDS.

About the Canadian HIV/AIDS Legal Network

The Canadian HIV/AIDS Legal Network (www.aidslaw.ca) promotes the human rights of people living with and vulnerable to HIV/AIDS, in Canada and internationally, through research, legal and policy analysis, education, and community mobilization. The Legal Network is Canada's leading advocacy organization working on the legal and human rights issues raised by HIV/AIDS.
